HELP KEEP CORONAVIRUS OUT OF OUR COMMUNITY

Keep a Halibut of Distance Apart

Avoid close contact with people who are sick. 6 feet at a minimum.

Put distance between yourself and other people outside of your home. Remember that some people without symptoms may be able to spread virus.

Keeping distance from others is especially important for people who are at higher risk of getting very sick.

We are open & providing the same excellent level of care for Health & Behavioral Health Services

Be ready for small changes like wearing a mask, screening questions and a temperature check when you get services. These small changes will help keep us all safe.

Now with expanded tele-distance delivery
